PROFESSIONAL OBJECTIVE Seek to contribute in the technology field by developing efficient, scalable, and

visually engaging solutions. Interested in roles involving backend development, system integration, and user experience design. Motivated to collaborate in innovative environments that promote learning, creativity, and technical excellence.

PROFESSIONAL SUMMARY Backend-oriented developer experienced in system integration, RESTful API design,

and performance optimization. Proficient in Genexus and continuously improving expertise in Go, applying Clean Code principles, microservices architecture, and modern software practices. Strong communicator with a proven ability to collaborate in cross-functional teams, combining technical efficiency with creative problem-solving. Highly driven to learn, adapt, and deliver maintainable, high-quality software.

EDUCATION

Universidade Anhembi Morumbi (UAM)   2025 — 2026 (ongoing)
Bachelor's Degree in Information Systems
Currently completing the final stage of the program, with emphasis on backend development, software engineering, and systems integration. The curriculum includes advanced studies in artificial intelligence, application architecture, and modern development practices.

UNIFEB — Barretos   2023 — 2025
Bachelor's Degree in Information Systems
Began the academic journey by building a solid foundation in programming logic, data structures, software engineering, and DevOps practices. Transferring to UAM represented a step forward in expanding technical knowledge and practical experience.

PROFESSIONAL EXPERIENCE

Backend Developer @ Dolphin   2023 — Present

- Developed and integrated internal and external RESTful APIs using Genexus.
- Collaborated on code reviews and refactoring, ensuring consistency and efficiency across teams.
- Supported integrations between legacy systems and new applications, maintaining compatibility and stability.
- Enhanced knowledge of Go through exploration of clean architecture concepts, design patterns, and best coding practices.
- Contributed to the creation of high-performance microservices focused on scalability and maintainability.

Technologies: Genexus, Go, MySQL, Docker

AREAS OF INTEREST

- Backend Development and Software Architecture
- Design and User Experience (UI/UX)
- Microservices and Systems Integration
- Clean Code and Design Patterns
- Communication, Planning, and Collaboration

TECHNICAL SKILLS

Backend:	Go, Java (Spring Boot), Node.js, .NET, Genexus
Frontend:	React, Next.js, JavaScript, Tailwind CSS
Databases:	MySQL, SQL, MongoDB, PostgreSQL
Tools/Other:	Docker, Git, GitHub Actions, AWS (EC2, S3), REST APIs, Postman

Soft Skills: Clear communication, teamwork, fast learning, attention to detail, problem-solving

LANGUAGES Portuguese: Native | English: Intermediate (B1)
